TRICOLOUR THRILLS IN
ON-TREND WOMEN'S FRAMES

WOMEN'S STYLES

If it's elegance, fashion and individual style that you seek, then new Ad Lib women's glasses tick all boxes. The design focus for new frames is a unique three-colour combination, tastefully depicted on the frame fronts and temples.

We discover these decorative nuances on octagonal (AB3297) and pantos (AB3298) shapes with tricoloured 3D brow lines and geometric colour effects on the sides. Thinner frames with a crown pantos (AB3299) or soft square (AB3600) shape gracefully express the colour combo on rims and on temples with custom-made hinge cuts.

Fresh shades including coral, mint green and fuchsia make these eyeglasses the stand-out styles of the new season.
