# WOMEN'S STYLES

# SHINY MATT CONTRASTS TEAM UP WITH ICONIC 3D TEMPLES

Women's Ad Lib glasses delight with their contrasting finishes and iconic temples. Gorgeous new colours on simple frame fronts stand out in shiny metallic expressions. Matt or shiny surfaces with geometric 3D structures add volume and provide a counterbalance to the otherwise clean lines (AB3284 and AB3285). All women's models are made of pure titanium with beta titanium hinges or temples.

## SLEEK ART DECO STYLE INSPIRES DECORATIVE TEMPLES

Art Deco, popularised in architecture and furniture in the 1920s and 1930s, influences two new women's frames (AB3286 and AB3287). This classy style's streamlined sophistication is found in embellished temples with sandblasted parts as well as in geometric forms and matted fronts, which add volume to the pared back frame lines.
