

ESPRIT ECOLLECTION PRESS RELEASE S/S 2024

ECOLLECTION: Fashionable eyeglasses with a purpose

Mix the playful, cool and modern style of ESPRIT with responsibly made materials. What do you get? The Ecollection – a range of sophisticated, high-quality optical and sunglasses that are on-trend, inclusive and inspired by earth-friendly values.

Ecollection glasses are special. Each frame is made of material that is responsibly sourced and certified by the Forest Stewardship Council®. This plant-based bio-acetate material is processed using organic plasticizers that break down naturally, so there's less impact on our environment. For glasses wearers, it's also good to know that as well as being planet-sensitive, these frames are light, durable, UV resistant and have a metal core for easy adjustment.

As the days get longer and warmer, revamp your spring and summer wardrobe with new-season essentials – like these glorious new Ecollection glasses and sunglasses. Edgy, rounded or cat-eye, each model is an authentic fashion statement. Highlights of these new looks include unique material layering, patterned and transparent tones as well as striking dark and light color contrasts. Color-wise, designers take their cues from the catwalk for a palette that's in sync with the latest trends. Rusty red, sweet rosé and a fresh take on classic black make these frames even more eye-catching.
